
Cat. No:	Catalog N	Amount	Concentration
	OX-003 MIX	1 ml	25 mM each
	OX-003 SET	1 ml x 4	100 mM each

Product Description: Offered dNTPs are manufactured according to DIN ISO 9001:2000 certified quality management system. Each dNTP has high Purity (99% by HPLC). Reagents are validated into our production for their functionality. They meet the quality needs of demanding Molecular Biology applications such as, Reverse Transcription, Q-PCR, PCR, DNA labeling, DNA sequencing.

Product Quantity: OX-003 Mix 1 mL contains (dGTP dATP, dCTP, dTTP in a 25 mM concentration of each, in total 100 mM).
OX-003 SET, 1 ml x 4 contains (dGTP, dATP, dCTP, dTTP in a 100 mM concentration of each).

Storage Conditions: Viable for 12 Month at -20°C after production date.

Quality Control: Passes Functionality tests: Reverse Transcription, Q-PCR, PCR, DNA sequencing.

Passes quality control requirement:
